

The American Institute of Architects
Continuing Education Systems
AIA CES Registered Provider Program Summary

Provider name: Swisspearl (www.swisspearl.com)
Program title: AIA HSW-Fiber Cement Panels
Provider number: 404108179
Course number: 404000001
Length: One hour
Credits: One LU
Health, safety & welfare: Yes

Learning Objectives:

- Describe the many product choices and options available in fiber cement panels
- Summarize the test standards met by high performing fiber cement panels
- List the components of a ventilated rainscreen system and identify how each contributes to reliable thermal performance and reduced energy consumption
- Discuss the fiber cement panel life cycle which makes it an excellent choice for sustainable design
- Discuss steps of preliminary design with fiber cement panels and how the ventilated facade system should be planned with drawings, especially the sub framing and panel layout
- Discuss the safety measures taken when handling and installing fiber cement panels

Audio/Visual Required:

- The CES presenter will use a PowerPoint slide show to share in depth knowledge about Swisspearl

Cost to participants:

- There is no cost to attendees

Point of Contact:

- **Country Manager USA and Canada**
Harry Harisberger, +1 636 698 5505
harry.harisberger@swisspearl.com

Facilitator Qualifications:

- All Swisspearl presenters have been trained on the AIA CES guidelines and will be very knowledgeable in facade and rainscreen products
